Professional Summary

Frontend Developer with hands-on experience in designing and developing responsive, user-centric websites using modern web technologies. Proficient in React.js, Tailwind CSS, and JavaScript, with a strong eye for UI/UX best practices and cross-browser compatibility. Adept at transforming Figma designs into pixel-perfect web pages and integrating RESTful APIs. Demonstrated ability to deliver scalable solutions in fast-paced environments.

Technical Skills

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Bootstrap, jQuery, WordPress
Backend: PHP, RESTful APIs
Database: MySQL, SQL
DevOps & Tools: Git, GitHub, Jenkins
Design & Development: Figma to Code Conversion, Responsive Design, OOP

Professional Experience

Web Developer Intern   Aug 2024 – Dec 2024
Viraj Softtech Solutions, Jabalpur, India

- Developed responsive web applications using HTML, CSS, JavaScript, and PHP.
- Translated Figma UI designs into functional, production-ready code.
- Debugged UI issues in WordPress-based projects and enhanced user experience.
- Integrated JavaScript components into React workflows and improved performance.

Projects

Skillyuvam.com – HTML, CSS, Bootstrap, JavaScript, PHP

- Built a responsive educational portal for listing skill development programs.
- Integrated backend validation in inquiry forms and implemented mobile-first design.
- Developed dynamic PHP modules for seamless content updates and navigation.

CitronTours.ae – WordPress, HTML, CSS

- Customized a travel booking website with dynamic sliders, galleries, and forms.
- Optimized load speed with lazy-loading, compression, and caching.
- Tailored theme styling using custom CSS to match client branding.

MufinAcademy.com – React.js, Tailwind CSS, JavaScript

- Created a scalable frontend for an e-learning platform using reusable components.
- Connected to backend APIs for course data and user authentication.
- Implemented course filtering, search, and modular UI architecture.
